Professional Summary

Machine Learning Engineer with hands-on experience in **Generative AI, NLP, and Big Data** systems. Built and deployed **LLM-powered applications, Retrieval-Augmented Generation (RAG) pipelines, and deep learning models**. Proficient in **Python, SQL, Apache Spark, and Kafka** with experience in **ETL pipelines, vector search (FAISS), and scalable data workflows**. Strong focus on **production-ready AI systems, model optimization, and real-world problem solving**.

Technical Skills

Programming: Python

Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation

Deep Learning: CNN, U-Net

Generative AI / NLP: LLMs, RAG, Prompt Engineering, Sentence Transformers, FAISS, Embeddings

Big Data: Apache Spark, Kafka, Hive

Data Engineering: ETL Pipelines, Data Processing, Workflow Optimization

Databases: SQL, MongoDB

Visualization: Power BI, Tableau

Tools: Git, GitHub, Jupyter Notebook, VS Code

Projects

LLM-Based Document Intelligence System (RAG)

GitHub

- Built an end-to-end **RAG pipeline** for semantic search, document summarization, and contextual Q&A.
- Implemented **FAISS-based vector search and embedding pipelines**, improving retrieval efficiency.
- Designed **scalable, modular architecture** for handling large unstructured datasets.

Brain Tumor Detection and Segmentation

GitHub

- Developed **CNN and U-Net models** for tumor detection and segmentation from MRI scans.
- Trained on **20,000+ MRI slices (BraTS dataset)** with preprocessing and augmentation.
- Improved performance via **hyperparameter tuning, validation, and experimentation**.

Cricket Data Analytics Pipeline

GitHub

- Built a **data analytics pipeline** to analyze player performance and match trends.
- Processed **5,000+ records** and created dashboards using Power BI.
- Delivered actionable insights using **data visualization and storytelling**.

Education

PG Diploma in Big Data Analytics (PG-DBDA)

2025–2026

Institute for Advanced Computing and Software Development (IACSD), Pune

B.E. Artificial Intelligence and Data Science

2021–2025

VES Institute of Technology (VESIT), Mumbai

Certifications

Fundamentals of Deep Learning — NVIDIA

AI for Predictive Maintenance — NVIDIA

AI for Anomaly Detection — NVIDIA
